Critical Incident Policy.

Introduction

This policy was drawn up in consultation with staff, parents, Board of Management and in response to a course run by NEPS to fill a need for a simple clear, general plan of action.

It was reviewed following its use in November 2013, and annually from that date, due to change of staff and health and safety issues.

A Critical Incident can be defined as: “any incident or sequence of events which overwhelms the normal coping mechanism of the school and disrupts the running of the school.”

Rationale & School Ethos

The school wishes to maintain a safe, caring, and responsible environment. To this end we wish to plan and implement a comprehensive, coping strategy which will address the different scenarios which may at some time affect our school community.

Aim

- The main aim of the policy is to plan for as many eventualities as is possible, so that, should given situations arise, we have a plan to put into action.
